

GHRA Policy on Synthetic Marijuana and related banned products

All GHRA members and employees in Texas need to be on the alert to NOT sell synthetic marijuana, bath salts and/or banned substances.

As we all know, possessing or selling of synthetic marijuana and related banned products in Texas has been illegal for a very long time. However, as a new Texas law, it is illegal to manufacture, sell, or possess banned substances, given their wrongful chemical elements. These substances known commonly as, kush, k2, scooby snax etc., are all advertised as legitimate products, but in fact are illegal.

Please take notice that the GHRA has a **NO tolerance policy** for these violations. If a GHRA member's store employee, partner and/or owner is caught selling or have synthetic marijuana, bath salts and/or banned substances in their possession, member will face strict disciplinary action:

- Membership will be immediately terminated. Terminated member's partners or immediate family (Parents, Spouse, Sibling(s) and Children) members cannot open new membership for the same location.
- All rebates and benefit(s) will be forfeited immediately.
- Member must remove all GHRA logo, signs, spanner board and Promotions within ten (10) days from termination.
